

Whistle Any Way I Can

[Intro]

Pucker up, let it fly
Hands in mouth, reach the sky
Whistle loud, whistle low
Let the silly breezes blow

[Verse 1]

I tried to whistle with my lips
All I got was air and drips
Then I watched my grandpa grin
Put two fingers in and spin

[Pre-Chorus]

Sidewalk shuffle, tapping shoe
Melody just pushing through
Doesn't matter if it's clean
Squeaky notes still sound like dreams

[Chorus]

Whistle any way I can — woo!
Like a teapot or a fan — true!
Bird call, wind fall, tin can band
Whistle any way I can
Finger pop, lip smack, blowin' sand
Whistle any way I can

[Verse 2]

Janey does the pigeon coo
Danny sounds like a choo-choo
Whistlin' through a soda straw
Bet you never heard that, naw!

[Pre-Chorus]

Don't need lessons, don't need tunes
Whistle howlin' like raccoons
Bicycle bell or kettle scream
Still belongs in whistlin' dreams

[Chorus]

Whistle any way I can — woo!
Like a teapot or a fan — true!
Bird call, wind fall, tin can band
Whistle any way I can
Finger pop, lip smack, blowin' sand
Whistle any way I can

[Bridge]

Can't whistle? Try again!
Buzz your lips like Superman
Or hum real soft, pretend it's near
Fake it loud and make 'em cheer!

[Break]

Whhhoo-wee!
Phee-phew!
(Toot-toot!)
Wooop-doo!

[Chorus]

Whistle any way I can — woo!
Like a teapot or a fan — true!
Bird call, wind fall, tin can band
Whistle any way I can
Finger pop, lip smack, blowin' sand
Whistle any way I can

[Outro]

So if you're blowin' weird and wild
Keep on whistlin', be that child
No one does it quite the same
That's the beauty of the game
